Pharmacy – All about maintaining standardized quality of people's health and living by providing quality medicines.

Pharmacy is not just a drug store. The medicine that is prescribed by the registered medical practitioner undergoes several stages ranging from the preparation of bioactive substance, chemical analysis and pharmaceutical formulation before it reaches the hands of the patient.

Pharmacists play a key role in the entire drug manufacturing process and it is not the end point. Pharmacists study and monitor all the medicines and products with market survey for the adverse drug reaction to research and develop medicine in multitudes. WHO has announced approximately 2.6 million pharmacists and other pharmaceutical professionals across the globe.

Vananchal College of Science starting the Pharmacy Courses as under:

Bachelor of Pharmacy (B. Pharm.)
